HEAVY SELLING MAKES INROADS ON PRICES.

CLOSING ON NEW YORK EX-CHANGE DULL AND HEAVY.

Net Changes for the Day Mostly Small and Mixed Between Gains and Losses.

ket did not give good promise of maintain-ing the strength which desclored ward to the cent. ing the strength which developed yesterday, but the announcement that a bankers' syn dicate had been formed to underwrite the new Pennsylvania stock issue caused a sudden upward spurt in that stock to a level 2 points over last night. The stock held that point but momentarily, and did not get back to the top level again for the rest of the day.

In the general market the average high level for the day was touched in the afternoon, when the preliminary estimates of the cash movements for the week were published, showing an unexpectedly heavy recipit on balance from the interest, thus off-setting the week's loss by good exports, which it was feared, would make to-morrow's bank return very weak.

There was sufficient selling to take profits during the last hour to make considerable inroads upon prices, and the closing was dull and heavy below the best. The net changes for the day are mostly very small and ere mixed between gains and losses.

RAILROADS ACTIVE.

RAILROADS ACTIVE. There was continued heavy selling this

morning of St. Paul and the Eries, and United States Steel stocks were inclined to be reactionary, the latter on account of the further cut in prices of fron. Union Pacific was inclined to lag throughout the day in spite of the claim of a definite settlement of its labor dispute. The news of the underwriting of the Pennsylvania stock issue did not hold its first stimulating influence. The underwriting is in effect a protective measure to assure the taking up of the issue at 120, at which price it was offered to stockholders.

When the offer was made Pennsylvania was selling above 140, so that the right to subscribe at 120 seemed sufficiently attractive. But from the first knowledge of the issue there has been persistent selling of the stock against the expected new issue and of the rights to subscribe to the new stock. The decline this week to 125½ brought within measurable distance the extinguishment of the value of the stockholders rights to subscribe.

Wall Street Gossip.

New York, May 22.—Foreign—Americans were strong in London on what looked like New York buying, but at same time sentiment there was more hopeful than here. Arbitrage houses were again buyers, though not on so heavy a scale as yesteday. It was estimated that they took on balance about 25,000 shares.

had agreed to underwrite the new issue of stock, the stockholders not having displayed much experies to exercise their "rights" to sub-scribe. This, it was said, blocked the schemes of the powerful bear clique which has been held responsible for the sensational decline in the stock these past few weeks.

Miscelläneous—Canadian Pacific was bought by strong interests familiar with the company's business. There is said to be a large short in-terest in the stock. The banking firm identified with the finances of the Union Pacific system was said to have given out the bulk of the buying orders in Southern Pacific yesterday and

MONEY MOVEMENT.

The news that sufficient money had been sent to New York from the interior to off-set the rather heavy outgo of gold came as a pleasant surprise. The known movements of money indicate a net gain by the banks of several hundred thousand deliars, the receipts on balne from the interior announting apparently to over the property of the pold exported was \$2.38,000.

But this does not take account of the 31-c00.000 in gold shipped to South America last Saturday too late for effect on last week's bank statement. Arrangements have also been rande to ship \$1.58,000 to South America on Monday.

receipts decreased considerably from the supplies the fore part of the week, but were about of the usual Friday proportions, the total supply being around 500 head, which was very little, if any, different from those of last Friday, although there were not as many steers included in the supply, here being four loads of 1,250 hough there were not as many steers included in the supply, here being four loads of 1,250 hough there were not as many steers included in the supply, here being four loads of 1,250 hough the supply here being four loads of 1,250 hough the supply here being four loads of 1,250 hough the supply and salesmen found it somewhat difficult work to make satisfactory sales; however, prices were considered in him with those of Thursday.

During the week there has been a very liberal supply of beef steers on sale that included the cattle have averaged very good. The receipts of cattle have averaged very good. The receipts of cattle at the principal markets so far this week have not been above those of the week before, although they were still of a liberal nature and as the beef market has not ruled in read shape there has been a declining tendency to the trade each day during the week, and an every few cattle have been bought by exporters, it left the market evactically to local killers who have taken advantage of the situation to force a decline, resulting disastrously to the heavy finished cattle, which received a setback of 20g25s and in extreme cases as much as 40. The lighter weight kinds declined about 25c.

At no time during the week has there been any life shown to the market on any class and each day's trade has seen but very few cattle sold until well toward the noon hour and then only after the hardest kind of work, and even at the decline buyers were very backward in bidding on the off ruins, and the period taken, as a whole, has been a mean one from all points of vice and the worst that has been had for the past two months.

Sales the after part of the week show good to chole 1,30 to 1,5

BUTCHER CATTILE—There was but little offered in the butcher department for the day however, there was enough to meet the demand that prevailed, with values raling slow and about steady with Thurssiay.

The butcher market has ruled slow and lower in sympathy with the beef trade this week although the supply, with the exception of Thesday, has not been exceptionally large. There has been a very good proportion of the good kinds of cows and helfers included, but the majority of the offerings have been of the plain to medium grades. SOUTHERN CATTLE—A fair supply of quarantine cattle were received that were mostly grassers, there being only two loads of fed steers at 4. available. The total supply amounted to 49 cars that contained 1.294 head, against 63 cars and 1.885 head last Friday, and 55 cars and 1.612 head two weeks ago.

Most of the cattle offered were of a decent to good class, there being only a load or so on the common order. The demand was fair, but trade was not brisk and values were slow and steady. The clearance was complete.

During the week quarantine steers sold at \$4.50, and best fed steers sold at \$4.50; cows sold at \$2.593.85; helfers at \$2.593.50; bulles at \$1.7563.85; mixed cattle at \$2.0034.55; and calves at \$2.0034.85; mixed cattle at \$2.0036.55; and calves at \$2.0034.85; mixed cattle at \$2.0036.55; and calves at \$2.0034.85; mixed cattle at \$2.0036.55; and calves at \$2.0036.95 per cwt. and \$5.005.00 calls.

New York, May 22.—Live Poultry—Receipts were confined to 1 car Western and 1 Southern. There was a fine trade, but demand for the week was over, and there are between 2 and 3 cars heavy fowls unsold on jobbers' hands. Prices without any change.

Dressed Poultry—Receipts to-day 531 pkgs. Demand yesterday was quite unsatisfactory, and while was considerable unsold at the close, and while the fresh receipts this morning were not heavy there was very little wanted, and as most of the stock was soft and needed prompi handling, receivers were compelled to make concessions, and offered fowls at 125g for medium while 12c was full high on heavy fowls, and even then buyers were not attracted. There is considerable poultry due from Kancas and the Southwest that is offered to arrive at easy prices, but may have to be carried over to next week. Old roosters dull and lower. Frest-killers from any section brought full prices, but poor and small neglected. Spring ducks worked out stowly at unchanged prices. Squabs about steady. SUMMARY OF ST. LOUIS MARKETS.

who freely sold Thursday were anxious to regain their holdings and shorts rushed to cover early in the session. So far as the foreign situation was concerned there was not much improvement. Liverpool and other European markets were on the downturn and the export demand was only moderate. As an offset for this lack of strength, it was reported that the clearances for the last week were extremely large. Crop news was un-expectedly bullish. The Modern Miller was out with a bullish estimate, and Snow for the first time conceded that the crop had been damaged to an extent which would mean a drop of 5 per cent in the average condition. Buying was brisk at the opening and continued so during the first hour. A reaction followed because of lack of outside demand,

but the close was strong.

Corn spened weak, but was well supported later in the session, in sympathy with wheat. Weather news was generally bearish and the cash demand was moderate. The

buying was mainly speculative. July wheat opened 1-16c off and closed 1/2%c up.

July corn opened unchanged and closed 14c up.

July oats closed %c off. Receipts of produce were fair, but there was a good demand and prices were gen-

Crop Estimates Are Generally Bullish and Statistics Show Large Clearances.

Though a portion of the early gains was lost, both wheat and corn closed higher for the day. There had been a good deal of overselling, and be-ides some of the bullish information which had been held in abeyance was put in circulation at the opening of to-day's session. Though cables were lower, the outside buying demand was zo much better than had been expected that the shorts lost no time in covering. Snow was out with a bullish report and crop damage news was plentiful in the last hour.
